## *Drive Through / ATM*

We have recently moved our drive through ATM from the third lane to the first lane. The most important reason for doing so was out of concern for the safety of our employees. For years, bank employees would have to go outside with large amounts of cash to fill the ATM and oftentimes felt uncomfortable so we decided to do something about it. By moving the ATM, our employees can now replenish the ATM from inside the bank. We realize this may cause some inconvenience and encourage you to begin using the vacuum tubes located in the second and third lanes to avoid being held up by customers using the ATM. Of course, if you have any large deposit bags that will not fit in the tubes, then you will need to continue to use the first lane or walk-up window. We apologize any delay you may experience.

## *International Travel*

Do you have plans to travel abroad this summer? There are a few things you need to know before you go. Many places experience high levels of credit and debit card fraud. To protect our customers, we often block those countries that are of greater risk to your account. Please contact the Bank before your trip to see if you can use your Visa Quickdraw® Debit Card in the country you are traveling to and to notify our Bookkeeping Department of your intended travel dates. Whenever possible, use your PIN (personal identification number) to avoid any card interruptions.
