

Where other banks have their branches...

Other banks in the area seem to come and go, but at Bank of Utica, you'll find a community bank that has offered customers financial strength and stability for 80 years.

Out-of-town banks can't possibly know their customers like we know ours. They certainly can't recognize and serve the needs of our local communities like we can. How can they, when they are focused on a much larger geographical area?

When it comes to choosing a bank, there's no substitute for experience and local knowledge. That's why there's no substitute for Bank of Utica.
