Portable Electronic Magnifier Now Available

Working with our longtime customer and partner, Central Association for the Blind & Visually Impaired, we purchased a Smartlux Portable Digital Magnifier to help customers with visual impairments do their banking at Bank of Utica.

With 5x, 7x, 9x, or 12x magnification, along with 5 different viewing modes that include full color, black on white, white on black, black on yellow, and yellow on black, you can more easily read or write.

If you would like to use this magnifier, please let a personal banker or teller know as we're here to help.
