Turn Cards
On and Off

Manage your debit cards on your terms. CardHub, a digital card solution that comes built into our Mobile Banking service, lets you control your debit cards by deciding when, where and how your cards are used.

- Easily track where your cards are being used (a great feature for budgeting)
- Establish dollar amount limits, transaction types, geographic locations
- Set real-time alerts to keep you informed when your cards are used
- Option to keep your debit cards turned off until you want to use it for more protection against fraud should they be stolen or lost.

Manage Daily Transactions Right from Your Mobile Device

Once you're signed in to Mobile Banking scroll down and select to "Cards". From here you can add your debit card(s) to Apple Pay, Google Pay, or Samsung Pay to see recent transactions, review your monthly spending, set controls and alerts, turn your card on/off, and more.

It's that easy! For more information or to get help using this service, stop in or call our Checking Accounts Department at 315-797-2761.
